Locking Collar Fits Bases: 1045, 1046, 1047, 1059 & 1060 (2 Pin)

Large Threaded Collar Fits Bases: 1048 (2 Pin)

NEW

“Reduced Glare” All-Round Replacement Poles Without Bases

Glare from standard lights can reduce night vision of the operator and impair his or her ability to see approaching vessels, obstructions and navigational aids. PERKO’s “Reduced Glare” design focuses the beam of light above the operators line of sight, thus limiting glare and improving overall night vision.

ORDER NO.	STYLE	SIZE	PRICE

PER 1445DP5CHR	Uses 5° Base	42"	\$36.73
PER 1445DP6CHR	Uses 5° Base	48"	\$40.32

All-Round Plug-in Pole Light – Anti-Glare Articulating Head

Anti-Glare Lens

- The lens is clear at the top to shine where it’s needed – and above. Provides a broad arc of light in rolling seas and makes the boat visible to taller craft such as freighters and commercial vessels
- When the lens is positioned at the One Meter Rule above sidelines, the bottom aperture reduces glare on the driver by cutting off the light beam at 7.5° below horizontal

High Output, 2-Mile Visibility

- Efficient 8-watt lamp produces high output and minimal heat
- Precision lens design focuses light for maximum visibility and accurate 360° light distribution

Meets or Exceeds Standards

- Conforms to current domestic and international standards for boats up to 12 meters (39.4')

Matches Existing Applications

- Fits Attwood and competitive model 2-pin plug-in bases
