

The Weld Mount System

A new line of fasteners specifically designed to be adhesively bonded to almost any surfaces. All of the fasteners are mounted with unique non-sag acrylic adhesives which hold the parts in place on a vertical or overhead surface providing a permanent high strength bond. Adhesives are rated from -65 to 250 degrees and set in less than 10 minutes.

Weld Mount System Parts Eliminate The Need To Drill Into Composites Core Which Can Result In Hull And Deck Delaminations. No Need To Drill And Tap When Used On Metal Surfaces. Weld Mount Fasteners Are Great For Mounting Electronics, Wire Runs, Bilge Applications and Firewall Wiring. **Weld Mount System Fasteners** Save Both Time And Money, Its Easy To Use, It Eliminates Drilling, And Its Tensile Strength Is Stronger than a Screw into the Core.

Complete Wire Tie Kit With Gun

The AT-50100 Weld Mount System Wire Tie Kit Is A Larger Kit With A Dispensing Gun And Mixing Nozzle For Faster Installation Of Our Adhesively Bonded Fasteners. It Has A Larger Number Of Parts And Eliminates The Hand Mixing Of Adhesive Required By Our AT-25500 Kit. The Adhesive Sets in 10 Minutes And Is Heat Resistant To 280 Degrees. The Glue Shelf Life Is 1 Year When Stored At 72 Degrees.

Kit Contains:

- 100 pc. AT-5 White Tie Mount
- 50 pc. AT-3 White Tie Mount
- 1 pc. AT-4020 White Adhesive
- 5 pc. AT-450 Mixing Tips
- 1 pc. AT-300 Adhesive Gun
- Step By Step Instructions
