CH Cole Hersee Ignition Switches

- Replaces many boat ignition switches. Fits into standard 7/8" hole
- For added security, switches have individual key codes. Compare with other products in which one key fits every switch of the same model.
- Corrosion-resistant nickel silver screw terminals have high electrical conductivity. Screw terminals give more reliable connections that are less likely to loosen due to vibration.
- Durable PVC key boot for increased weather-resistance
- Made in the USA.
