

F2 Trailer Jacks

Precision extruded aluminum alloy inner & outer tubes, combined with twin alignment bushings, ensure a precision alignment. The anodized finish keep the tubes virtually corrosion free. Revolutionary adjustable mount & swivel system. Engineered to be the strongest swivel mechanism in the industry, it is also the first mounting system that can be adjusted to any desired height. Integrated pull pin with ergonomic grip makes it easy to swivel into position for lifting or transport. Smooth wheel performance. Twin track 7" diameter wheels are designed to roll independently to make changing direction smooth and effortless. 5-1/2" wide wheel base adds superior stability

8" of mount travel
 10" of screw travel Total 18" of overall travel
 Fits bolt on 3" and 4" tongues
 Fits weld on 3" and up

ORDER NO.	DESCRIPTION	PRICE

6400 Pivoting Tongue Jack

Pivoting, screw type tongue jack has an 1000 lb. tongue weight capacity. Jack operates on a precision rolled Acme thread which is an extra heavy duty screw type drive. Comes complete with all necessary hardware for mounting. Zinc-plated with TUFFPLATE® finish. Fits square tongues up to 3" x 5".

ORDER NO.	PRICE
DUT 6400A	\$66.63

Pivoting Tongue Jack

Pivoting screw-type tongue jacks are easily rotated to a vertical use position and reduce cranking to a minimum. The jack can be rotated to a towing position by operating the spring-loaded locking mechanism.

- Totally enclosed outer tube retards sand and dirt from coming in contact with miter gears and heavy duty Acme screw
- All necessary mounting hardware included. Fits square tongues up to 3" x 5". Can be adapted for round tongue mounting.
- Floating miter gears allow for proper clearance resulting in easier operation
- Extra lift for high mounted bumper applications.
- All bright zinc plated TUFFPLATE® finish for longer life
- Maximum maneuverability from offset swivel caster assembly
- 1000 lb. capacity, 12" travel
- Made in U.S.A.
