

**PERKO** FLUSHPRO™ From PERKO

With FLUSHPRO™ from PERKO, you can flush your direct drives, V-drive, Jet Drive, applicable Inboard/Outboard or Heat Exchange systems with an ordinary garden hose. By waiting until the engine has cooled, flushing is simple and much safer than working with a hot motor.

- Flush your boat engine safely and easily.
- Transparent so you can monitor water flow.
- Check valve automatically shuts off hull intake when water pressure is applied.
- Check valve prevents water from entering boat even if you forget to replace FLUSHPRO™ cap after flushing.
- Tune up and change oil easily at your convenience.
- Winterize your boat with optional adapter by running antifreeze from a bucket into the FLUSHPRO™ system.
- Available in standard 1" or 1-1/4" hose size.

\*Kit includes: (1) Check Valve with Hose Clamps, (1) PER499 DP CHR Water Inlet Fitting and (1) 7' Length of Hose and Fittings.

**Salt Terminator™**

**Marine Engine Flush & Corrosion Protectant**

SALT TERMINATOR™ dissolves salt and leaves a protective sheen, guarding against future salt corrosion. The SALT TERMINATOR™ Mixer automatically dilutes the concentrate and siphons it through a standard garden hose. Connect the hose to your engine's flushing unit and add extra years of service to outboards, I/O's, jet boats, and personal watercraft. Spray SALT TERMINATOR™ on all surfaces exposed to salt water or salt air. No scrubbing required! Spray on fishing gear, tackle, and dive gear to clean and protect from future salt corrosion.

KWK SX10	10oz. Ready-To-Use Spray	\$7.38
KWK SX32M	Quart Concentrate with Mixer	\$24.38

**Alloy Marine Products, Inc. Fakealake Inboard Engine Flush**

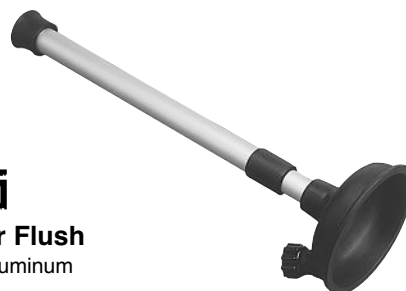

Fakealake is a simple solution for inboard engine flushing, winterizing, or any time you need to run an inboard engine out of the water. Easy to flush, tune, and inspect any inboard engine. Boat interior and engine compartment stay dry. Simple to use. Just hook up a standard garden hose, adjust the height of the handle, place the rubber cup over the water intake screen on the bottom of the hull, turn on the hose, and start the engine. Adjustable in height from 17" to 28".

**Neutra-Salt Engine Flushing Kit**

- Designed for both freshwater- and saltwater-cooled engines that have an engine-driven raw-water pump.
- For installation on all gasoline inboards and sterndrives. An effective and simple solution to combat internal corrosion and help extend the life of your engine.
- Flushes your engine and cooling system in 45 seconds while the boat is sitting in the water.
- Helps protect your engine from saltwater damage.
- Helps prevent corrosion by removing salt deposits, leaving a protective corrosion inhibitor on all metal surfaces, including: power-steering and oil cooler, engine block, exhaust manifold and risers, thermostat housing, circulating and raw-water pumps
- Installs easily and operates smoothly.
- Kit includes: one quart of QL Neutra-Salt motor flushing concentrate, 3-quart reservoir with mounting bracket, eight feet of hose, brass raw-water inlet tee fitting, connecting hose for power-steering cooler, hose clamps, momentary on rocker, "flush" switch, wiring harness with fuses, and solenoid.
- Boat owners will typically get 10 to 15 flushes before a refill is needed.
- It is also biodegradable and nontoxic.
- Fits 1" and 1-1/4" hose
