

Boat & Motor Carriers

SEA-DOG

Rail Mount Motor Bracket
Injection Molded Polypropylene

Designed to hold small outboards up to 8 HP- 2 cycle upright on the stern rail. These Sea-Dog Motor Brackets will fit both 7/8" and 1" rails as well as rails using 90° tee fittings. The two piece unit is made of UV stabilized polypropylene and comes complete with fasteners. Extra holes enable the use of a recommended safety chain to secure the motor. It can also be used as a mounting platform for barbecues, downrigger brackets, fish cleaning tables, etc.

Auxiliary Motor Bracket for 4-Stroke Motors

Raises and lowers trolling and auxiliary motors on power and sailboats with ease! Combines the best qualities of our Garelick retractable outboard motor brackets. This bracket is easy to use and built especially to handle newer, 4 stroke, heavier and high torque auxiliary motors in rougher water!

High tensile alloy black anodized aluminum body resists corrosion. Aircraft type stainless steel hardware for increased durability. Motor safety cable included. 2" thick, extra wide black poly mounting board. Accommodates wider outboard motor mount clamps. Easier to lift with heavy-duty stainless steel torsion springs that help counterbalance motor's weight. 2 positive safety locks secure bracket in up position. Easier to hold with comfortable, soft hypalon grip handle. Easier to operate with 5 position lock bar for more trim adjustment.
