Registration Number Plates

Two registration number plates are available in either hard plastic or pressure-sensitive vinyl-mylar. Bernard 3" pressure-sensitive letters and numbers can be applied to either style plate before the plates are secured to the hull. Hard plastic plates are attached to hulls with screws to wood hulls and can easily be removed at refinishing time. The hard plastic plates are also excellent for use on inflatable boats by tying them to hand lines. Pressure-sensitive labels are for fiberglass or metal hulls.
