238 Series Seat Mounts, Posts and Bases

Corrosion-Resistance

- Pedestal tubes are hard-anodized aluminum
- All springs are stainless steel
- Bases are bead-blasted and clear-coated

Smooth Movement Without Wobble

- Slider has gear-tooth lock mechanism; locks solidly, disengages easily
- Handles are ergonomically designed to be easy on the hands and easy to reach

Type A: Operator, OK for Helm/Driver position

Not recommended to interchange with other manufacturers' products.
