**DetMar Self-Stowing
Outboard Ladders**

The patented DetMar Stow-A-Weight Hinge is the component that makes these boarding ladders unique. No straps or line ties are needed. The lower portion of the ladder is simply raised, folded back and dropped into raised- locked position. To lower, the folded up section is slightly lifted and then swung back to down position. Load tested to one thousand pounds. Ladder construction is of 7/8" O.D. anodized aluminum.

"Swinger" Pontoon Boarding Ladder

Revolutionary design allows permanent attachment at port or starboard side gate. Ladder stores flat and conveniently out of the way against railing, yet is always with you for use when swimming or in emergency. Easy to use, unique attaching brackets enable ladder to swing horizontally then up or down into position quickly. Featuring durable double walled 1" diameter aluminum tubing. All aluminum parts are Anodized, a protective finish which helps prevent saltwater corrosion and weathering. Three non-slip, comfortable 24" wide oval-shaped aluminum steps make boarding a pleasure. Aluminum folding standoffs with cushioned tips about the pontoon "logs" for added support. Proper installation allows ladder to mount and pivot forward of gate door opening for added safety. Easy to install, includes stainless steel mounting hardware and fold up securing strap. 36" height is from the mounting bracket to bottom step.

**Folding Latch Type
Swimming Ladder**

Ladder hangs in folded position while cruising and folds down below water line for boarding. Attaches easily with 1 pair of Model 76000 Shur-Loc catches provided. Durable 1" diameter aluminum tubing with comfortable and sturdy white traction molded plastic steps. All aluminum 9 1/2" standoffs with cushioned tips. Straps lock ladder in up position. Folds 3 to 6 steps. Opens to 57".
