

Dometic Marine Refrigerators with Built-In Condensing Units

Features:

- Includes interior lighting.
- Operates with a reliable and quiet Danfoss 12 volt 3.2 amp compressor using the environmentally safe R134a refrigerant.
- Dual voltage AC/DC.
- Rigid external chassis with extra thick, highly efficient poly-urethane foam insulation throughout.
- Standard with forced air condensing units to provide better heat transfer, higher efficiencies, increased interior volumes and longer life.
- Units come standard with flush mounting flanges. Bottom flange is removable.
- Door panels are easily interchanged to match specific interior applications. (Units come standard with a black finished panel.)
- Standard with the attractive side latch—a positive locking mechanism that easily slides for opening and closing.
- Adjustable shelving for efficient use of interior space and storage.
- Magnetic door seals are standard on all non-portable units.
- Includes freezer.
