AIR COOLED CONDENSER

- Oversized air condensers
- Accommodates large refrigerators up to 15 cubic feet with 3" of polyurethane insulation
- Danfoss BD50F compressor
- Stainless steel construction
- Shrouded forced air condensers
- Modular phone-jack connection for thermostat
- Quick connect couplings
- High CFM fan
- Built-in trouble-shooting diagnostics
- Can be installed up to 15 feet from evaporator
- Precharged and ready to install!

BTU Rating: 650/hr. maximum @ +25F evaporator
 Weight (approx.): 17 lbs.
 Dimensions (approx.): 11.15"D x 10"W x 7.5"H

ORDER NO.	PRICE
DOM CU100	\$987.00

SMALL VERTICAL EVAPORATOR

Medium sized refrigerator to small freezer, closed evaporator.
 Cooling capacity:
 9 cubic foot refrigerator
 Dimensions:
 10.5"L x 11"H x 6"D
 Includes 15" of copper tube set, thermostat assembly, 2 Verticube aluminum ice trays and installation hardware.
 Cooling volume up to 9 cubic feet with 3" of polyurethane insulation – 40% on time, 3 cubic foot freezer with 4" of insulation – 50% on time.

Domestic EnviroComfort Kit A/C + Heat

With Environmentally Friendly Gas Reverse Cycle A/C and Heat

Enjoy ideal temperatures in your boating environment with Domestic's EnviroComfort marine air conditioning systems.

All EnviroComfort models use R-417A refrigerant, an environmentally friendly gas. The EnviroComfort kit includes everything needed for a professional installation on boats with or without an air conditioning system. EnviroComfort units use high-velocity blowers that eliminate blower-motor overhang for a smaller installation footprint. For flexibility in connecting to ductwork, the blower is rotatable to either a horizontal or vertical position. The compact, space-saving design is contained in a stainless-steel drain pan, and the preinstalled return-air filter is easily removable and cleanable. For system operation, EnviroComfort models come standard with a new-style plastic remote electrical box for added convenience in mounting.

Key Benefits:

- New-style compact Passport digital display control.
- New-style plastic remote electric box for convenience in mounting.
- Pre-installed return-air filter, easily removable and cleanable.
- Small, compact space-saving design.
- Complete kit - All pieces, parts, and pumps (from seawater intake to supply air grille).
- Replaces Cabin Mate.
- EnviroComfort - cool and heat - Model ECD (EnviroComfort Digital).
- Optional dual duct kit for 6.5K and up models
