SDG 3571001	5/8" hose	Black	\$3.95

## P-Trap Fuel Surge Protector

Eliminates the need to install a fuel line vent and a surge protector—now one product helps avoid fuel spills, provides fuel tank venting, and resists water intrusion into the fuel system. Meets ABYC Standards.

- Operates in any orientation within 45° of vertical
- Withstands oil, gas, alcohol-blended fuels
- Constructed of glass-filled polypropylene

## 90° P-Trap Fuel Tank Vents

These vents help prevent water from entering the fuel tank, yet allow air to vent freely, during normal sea conditions and washdowns. This eliminates the need for an anti-siphon loop in the vent hose. For 5/8" I.D. hose. Meets ABYC Standard.

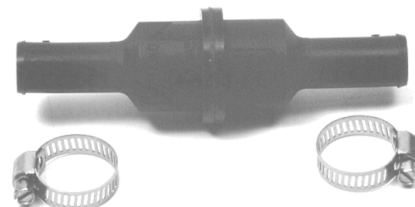

ORDER NO.	DESCRIPTION	PRICE
ATT 16703	Black w/Black Vent Head	\$12.88
ATT 664193	Black w/Stainless Trim Cover	\$13.55
ATT 9115261	Replacement Cap for 16703	\$5.26
ATT 9115281	Replacement Cap for 664193	\$14.35

## In-Line Fuel Surge Protector Vent Line Surge Protection for Built-In Tanks

The Surge Protector avoids refueling spills because when the tank becomes full it causes automatic fuel nozzles to shut off. With non-automatic nozzles, it causes a gurgling sound to indicate that the tank is full. For use with 5/8" vent hose.

ORDER NO.	PRICE
ATT 16751	\$20.30
