

TF Xtreme Cables

TF Xtreme's unique design means incredible smoothness and efficiency—with hardly any lost motion—even in the longest and most complex cable routings! This means superior feel at the control, especially in multi station vessels...performance that until now was considered "impossible."

- Super tough conduit:
 - Black HDPE outer casing (there's nothing better than carbon black pigment for environmental durability! That's why all our cables are black.)
 - 033" lay wires (optimum strength & flexibility)
- 4" minimum bend radius.
- Nickel-plated brass swivel tubes.
- Exceeds all industry standards.
- State-of-the-art manufacturing cell assures total performance consistency in every TF Xtreme!
- Now available in "Drop in" replacement for Mercury and OMC.

Universal Type 3300 with 10-32 Ends
