

570 PUMPS

JOHNSON PUMP L1600 & L2200-12 VDC

The best choice when you are looking for a high performance, heavy duty bilge pump that is designed to meet and exceed the tough demand of commercial and recreational duty. This pump has a liquid cooled, 12-pole motor with double ball bearings for extended service life. The L2200 motor is sealed off by a mechanical seal design that eliminates shaft wear and allows for service and replacement, while the L1600 model has lipseal. The impeller is carefully designed and tested to maximize head and flow.

attwood genuine integrity

Sahara Automatic Bilge Pumps

A compact, automatic bilge pump you can count on for long-lasting performance.

- Cool operation
- Durable design
- Compact size

Sahara pumps feature an improved pump chamber and motor housing. As water flows through the pump chamber, it circulates around the pump motor housing, helping to absorb the heat given off by the operating motor.

rule Personal Watercraft Automatic 500 GPH Pump

Will automatically remove water from the engine compartment, without the use of a float switch. The pump automatically checks for water, and if present, continues pumping until all the water is removed. Its compact design (2-3/4" wide, 4" high) allows it to fit in the tightest of spaces. The pump is of the highest quality and features 6' wire leads for easy installation.
