

**Water/Holding Tanks**

Todd's one piece molded Water/Holding Tanks are tough and durable. Each tank fully complies with FDA regulation CFR 177.1520. All tanks satisfy all United States Coast Guard standards. Polyethylene tanks will not emit waste odors or change the taste of fresh potable water. All openings are female NPT (National Pipe Threads) and are located in the same relative position on one end of the tank.

ORDER NO.	CAPACITY	LENGTH	WIDTH	HEIGHT	PRICE
TOD 851667WH	9 Gallon	17"	14"	10"	\$107.41

**Pumpgard Snap-in Strainer**

Snap-in design fits directly into inlet on PAR-MAX water system pumps for quick, easy installation. Strainer base has sturdy support leg for secure mounting. Includes both 1/2" barbed and 1/2" threaded inlet ports for most common installations. The snap-in inlet port also accepts any optional PAR-MAX port fitting, making it a great solution where space is limited, or when adapting to different types of hose.
