attwood[®] Thru-Hull Connectors Rugged Stainless Construction

- Cast from certified #316 Stainless Steel alloy for strength and life time corrosion resistance.
- We polish all visible areas to a mirror finish, then send each part through passivation for additional protection.
- Thick steel sidewalls withstand continual stress and hose flexing

attwood[®]

Molded of tough acetal resin plastic. Will not rust, corrode, discolor or, because they're nonmetallic, contribute to electrolysis. Special design reduces hull streaking, also allows counter-sinking wherever a flush fit is required.

Hose I.D.: 5/8".
Stem length: 3-1/4".
Maximum hull thickness: 1-1/2".
Flange diameter: 1-1/4".
Installation hole diameter: 1-1/8".
