|-----------|------------------------|---------|
| MMM 05539 | 2" | \$23.71 |
| MMM 05540 | 3" | \$26.91 |

3M ROLOC Bristle Discs

The ROLOC Bristle Disc is a molded abrasive bristle product designed to conform to the workpiece in numerous surface conditioning applications. Much safer to use than conventional wire brushes the discs use the quick "1/2 turn on, 1/2 turn off" ROLOC fastening system for maximum convenience. In addition, the ROLOC Bristle Disc works well in applications where loading is a problem, replacing wire brushes, surface conditioning discs, and coated abrasive discs. The bristle design and 3-dimensional abrasive enable the bristle disc to remove coatings, sealant, and adhesive quickly, leaving a clean surface ready for subsequent operations. The high Maximum Operating Speed (MOS) of the bristle disc makes it compatible with right angle die grinders. Use in conjunction with the ROLOC Disc Pad Assemblies.

| ORDER NO. | SIZE | GRADE | COLOR | DISCS PER BOX | DISCS PER CASE | PRICE |
|-----------|------|-------|--------|---------------|----------------|---------|
