PHR 3071U	30 gram	12	\$17.17

**Marine-Tex® PolyDura™  
Specialty Plastics Adhesive**

Marine-Tex Poly-Dura™ is an epoxy plastics adhesive for hard-to-adhere materials like PVC, ABS, polyurethane, vinyl and polyethylene\* plastics. \*Polyethylene must be flame treated, see detailed instructions.

PolyDura will adhere to wet or dry surfaces, it is exterior rated for the harsh marine environment. This shock absorbent epoxy will withstand general flex and movements associated with polyethylene or Starboard® and Marine Lumber type materials.

57 Gram kit includes a cartridge of epoxy, a static mixing nozzle and a re-usable caulking gun adaptor. A caulking gun or Dispensing Gun is needed for application. These tools are required to dispense material through Static Mixer.

Repair polyethylene — kayaks/canoes/coolers, dock floats, holding-tanks, portals, hatches, bait-wells, bins, buoys, wind-surf-boards, covers, tubs, ponds and more.
