MDR **Oilzorb Engine Pan Pad**

18" X 18" pad absorbs 20 times its weight in oil... one pad soaks up 3 quarts of oil yet repels water!

Place pad under engine to catch and soak up oil leaks and spills, gasoline, transmission fluid, diesel fuel or any other hydrocarbon. When pad is saturated with oil, pad can be lifted out for disposal, without dirtying hands, with convenient tie-down rope loops in corners. Will not disintegrate...non-toxic. Pad can be wrung out and re-used if desired.
