

Peace of mind while knowing your boat is being looked after 24/7 by the only around-the-clock **Command and Control Center** in the marine industry.

Get **IMMEDIATE** access to live agents who are standing by, around-the-clock, when you have questions about your boat!

With a user-friendly app you can boat from the palm of your hand.

**Real-time information and notifications**

Get immediate insight into battery hours, engine hours and much more. Our live support team will notify you immediately when a critical event happens!

**24/7 anti-theft and unauthorized use alerts**

If your boat moves, whether on a trailer or in a slip, without your authorization, you'll be the first to know.

**Internal back up battery**

Though your device is hardwired to your battery, should it become disconnected from theft, loose connection or otherwise, we'll let you know.

**Customizable alerts**

Stay in control by setting notifications on the app.

**Track your trips**

Have a favorite fishing spot or restaurant? Our replay capabilities trace your outings.

**Monthly performance reports**

We'll send you a report each month to remind you of how your boat is performing!

**Around-the-clock app**

Monitor battery health, GPS location, coordinates, slip into protect mode, or simply contact us with questions. You can do it all with a touch of the button.

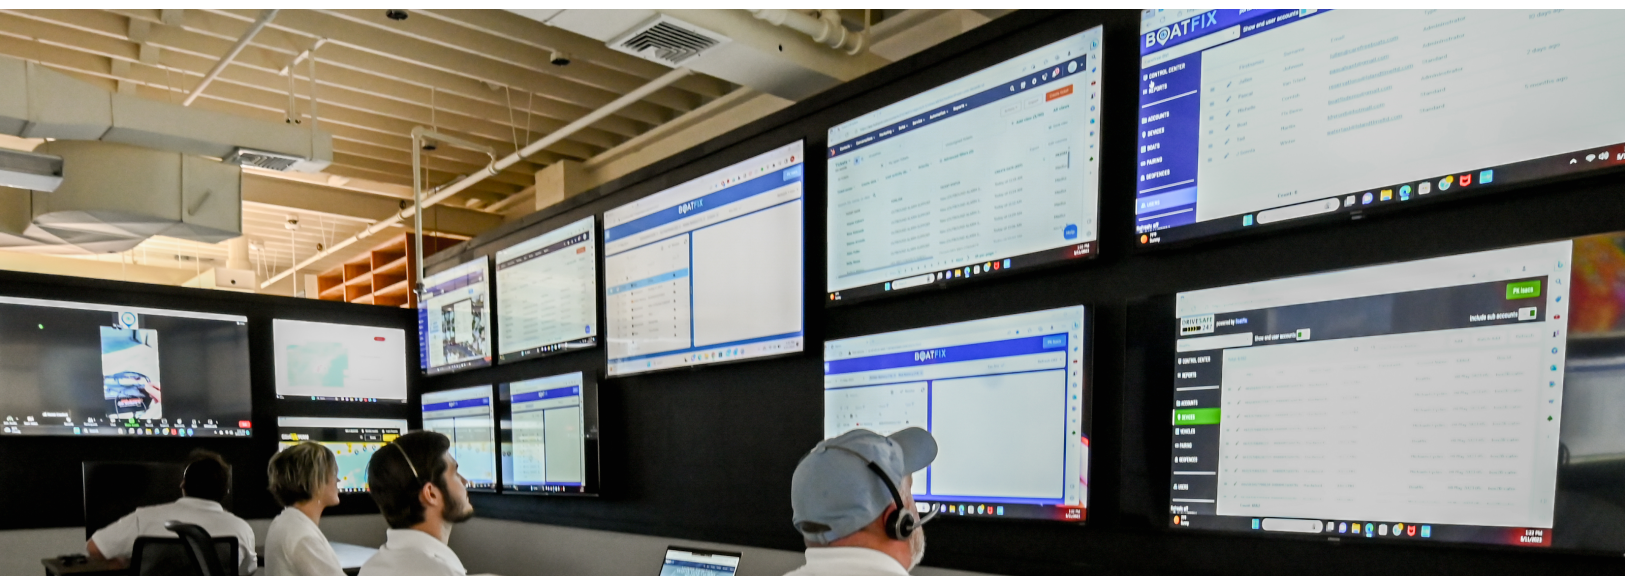

**24/7 customer support**

With a fully staffed command center in Connecticut, we're here to answer your call with by a live person EVERY time.

**24/7 mechanical helpline**

Boat won't start? Need help? Call us 24/7 and our mechanic on the line will troubleshoot and help get you back up and running!

When it's after hours at your dealership, or your service center is closed, the Boat Fix Team is standing by 24/7 to help!

## Frequently Asked Questions

We always welcome you to reach out on your app, but in the meantime here are a few more details regarding the Boat Fix service.

### Can I use this service for any boat make or model?

Absolutely, and the great news is, when you're ready for an upgrade, the device and service is easily transferable at no cost.

### What kind of questions can I ask?

Whether you need help downloading or navigating the app, can't start your boat, need some mechanical guidance, are ready to renew your yearly service, our team is here to help!

### Can other family members or friends utilize the app?

Absolutely! Simply call us and we'll add them as a user.

### If I need mechanical help, do I need a tool box?

The point of our mechanical helpline is to guide you through some simple check points to get you back to your boating day. We'll never ask you to "fix" anything or do anything outside your warranty coverage. Instead, we'll make sure you've checked all the boxes and, if necessary, help schedule a tow with your preferred towing company and get you safely back to shore.

### What is the Protect Mode you talk about?

With a simple slide of the bottom on your app home page, you can create a 100 yard invisible fence around your boat. If an unauthorized user breaches that fence, you'll know, we'll know and, most importantly we will work with LAW ENFORCEMENT!

### Do you REALLY answer on weekends?

It's our busiest time and we're staffed and ready. No more frustrations when you're out on the water, we'll answer and help walk you thru.

### Will you help contact my dealership if I'm stuck on the water?

You bet! We work very closely with the dealerships and will help assist with an email to the service center.

### Do you let me know if my battery is low?

We do and that's why the Boat Fix service is so great. We'll proactively let you know if something is amiss so you'll never miss a day out on the water.

### Can you help navigate shallow waters and rocky shorelines?

With a quick call to our Command and Control Center, we can help you identify no-go zones and create invisible fences. If you begin to cross into dangerous territory, you'll get a notification.

### Will I get a discount on my insurance?

Please check with your carrier, but a lot of insurance companies recognize the importance that a service like this provides and some give breaks on premiums.
